Roundtable

Where to Start?

Migration Center

migrationcenter.skyward.com

Evaluate Readiness

Considerations - Things to know before you migrate

Explore the Product – Fit Gap Features

SMS Data Prep

Planning for the Migration

Contact Your Sales Rep

Notified upon completion of Migration Center steps

Your Point of Contact throughout the process

Ready to move forward!

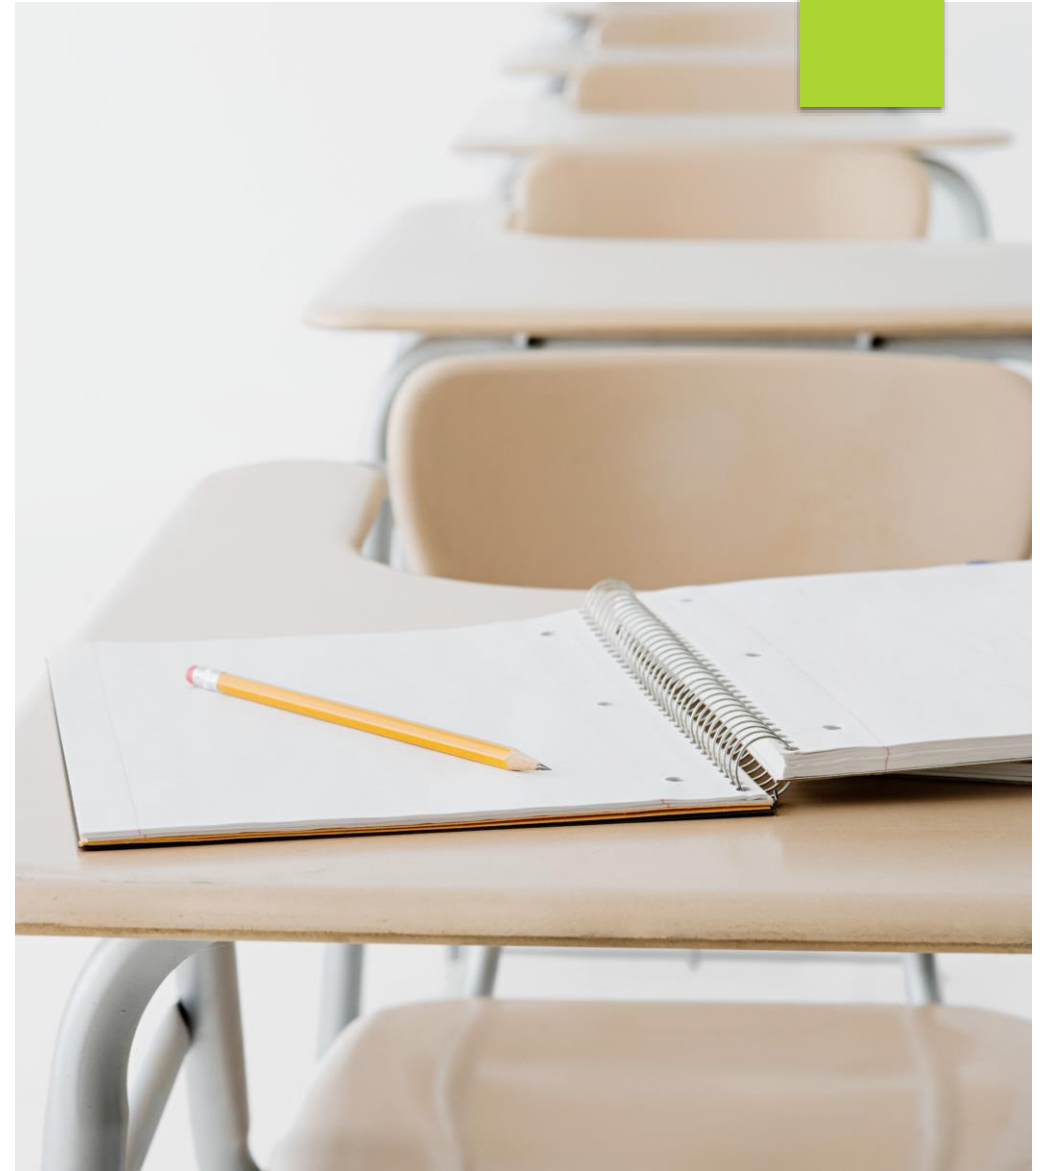

Assigned Project Manager

- ▶ Kickoff call to review the process
- ▶ Determine Go-Live date
- ▶ Regular meetings to establish the training plan

Migration/Training

- ▶ Training Environment
 - Your Data from SMS
 - Used throughout the Training Plan
- ▶ Multi-Phased Approach
 - Security Setup
 - Module Configuration
 - Practice Processing
 - Go-Live Prep

Qmlativ Go-Live

- ▶ Strive for Minimal Downtime
- ▶ Continued efforts in carrying over setup from training environment for an ease in transition
- ▶ Start Processing Right Away

Product Management's Role

Voice of the
Customer

Identify Key SMS 2.0
Features Needed in
Qmlativ

Deliver Solutions

Qualitativ Differentiators

Teacher

Gradebook

Grades are live throughout the system

Unique calculations per grade bucket

Semester Exams can be connected to Semester/Final Exam Bucket

Academic Standards are unlimited and allow 'tiers' of standards with any

Attendance

Live-Tile dashboard that links to specific daily attendance screens

Drag & Drop desks in seating charts to better accommodate classroom layout

Ability to control which attendance comments show or don't show in FA per student.

School Office Staff

Online Forms

- Electronically engage and collect necessary data from students, families, & staff
- Accessible via the mobile application
- Preview the form as if you were the one filling it out before completion

Student Safety

- Critical alerts create a banner throughout the system and the student's name appears red in addition to an indicator
- Require acknowledgement - stops users from moving forward in the software
- Critical and Acknowledgement alerts can be added to health conditions and linked to the student profile and food service

Data Analysis

- List screens can be filtered, sorted, and columns added to assist with easily viewing the data you need.
- Live Tiles, charts, exports, and quick reports can be generated from list screens to easily grab the data

Online Forms in Mobile

- ▶ Getting Started
 - ▶ Tile for form on SA/FA/TA dashboard
- ▶ New Vertical Display
- ▶ Shows Total number of steps

Online Forms in Mobile

- ▶ Easily navigate to any step
 - ▶ Optional versus required
 - ▶ Skip capabilities (optional)
- ▶ Can easily view which steps are required versus optional
 - ▶ Blue Check - Completed
 - ▶ Dark Grey – Not yet Started
 - ▶ White – Opened, but not finished
 - ▶ Blue Geotag – Step you are currently on

Director of Technology

Customization

- Provides flexibility to support custom screens that house custom fields to meet local use cases
- These screens can be integrated throughout the system

Security

- Supports multi-factor authentication (MFA)
- Security Roles allow you to easily assign tasks to your security groups for a more streamlined and manageable setup

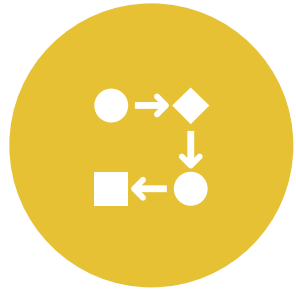

Reporting

- System Report Designer gives access to almost every field in the database and supports complex calculations and filters. Import Designer allows you to create custom imports for almost any area/data within the Qmlativ system

Reporting Options

Customizable List Screens*	Insert and arrange fields Filter, sort, and total data Generate Quick Reports
Canned Reports	Standard reports created/maintained by Skyward
Data Mining	Create custom reports Select fields, sorts, totals, and output (excel, PDF, etc)
Report Designer*	Advanced reporting used to create custom reports More powerful (and complex) than Data Mining

Discussion

Where are you in the process?

What scares you about the move?

What are you hearing?

What excites you about the move?
